LEKYTHOS FLUO VASE

\$3,540

DESCRIPTION

A timeless object of true craftsmanship, this vase is inspired by the celebrated Lekythos vases of the fifth century BC, and is part of the Art Collection. It was hand crafted in Murano of gold and crystal mouth-blown glass. Precious 24 kt gold tesserae with yellow and blue glass were applied to create the mosaic detail around the neck of this amphora-shaped vase. Used as a stand-alone accent piece, the elegant silhouette of this eye-catching vase will enhance any room with its stately appearance.
