LES DEUX MAGOTS VASE BY ELENA CUTOLO

\$1,760

DESCRIPTION

An enthralling combination of colors and shapes, this refined vase will make an alluring centerpiece in a minimalist living room, dining room, or entryway console. Part of the Paris in the Twenties Collection, this vase is a stylized homage to Les Deux-Magots, a café-restaurant in Paris that famously served hot chocolate to Surrealists painters. Crafted entirely of aluminum, the highly modern cylindrical profile in deep purple is embellished with round, red spheres that elegantly dance around the vase for a whimsical effect.
