### LET'S TALK TABLE

\$1,455

#### DESCRIPTION

This elegant table will bring a touch of elegance and sophistication into any home. The clean lines of the silhouette are simple, yet reveal the bold personality of the piece. The striking shapes in this table were achieved through the precise cutting of sheets of metal and the careful arrangement of each element. The base is comprised of an array of cubes stacked on top of one another, alternating in size. The chic base supports the flat square top and each piece is painted in bright white for a polished look.
