LIBERTÀ BOWL

\$180

DESCRIPTION

Designed by Gherardo Frassa for the Frutteti collection, this stunning bowl is made of Bohemian crystal and is decorated with removable dragonflies made of polished stainless steel, whose elegance and grace symbolize freedom, "libertà" in Italian. The dragonflies are exquisitely detailed with delicate engravings and seem to fly over the bowl with their fluttering wings. This sophisticated piece of functional decor will transform a classic crystal fruit basket into an art piece that can be displayed on a dining table or console to add a romantic touch into any interior.
