## LIGABUE PENCIL IN OLIVE WOOD

\$180

### DESCRIPTION

This magnificent pencil features a large body holding a 3mm lead that makes it easy to write and draw with. The chromed metal accents strikingly complement the body in olive wood from the Mediterranean whose yellow color is covered in lighter and darker veins, making each piece unique. Because of the handmade manufacturing process and the variations in the wood, each piece is unique and can differ from the photo (it can also be hand-engraved).
