LIGHTING : TABLE LAMPS

Laura Meroni

LIGHT CUBE LAMP

\$2,390

DESCRIPTION

This striking table lamp has an aluminum structure covered with burnished brass sheets and a diffuser in micro-perforated stainless steel. The cubic shape of this piece allows it to be placed on a table or even the floor, since the light is projected upward. Part of the light is reflected below the body of the lamp, over its square base, giving the effect of an object floating in space.
