LIGHT JEAN COFFEE TABLE

\$1,610

DESCRIPTION

Simplicity and modern elegance merge into this coffee table of the Jean collection of stackable tables, characterized by irregular shapes and basic colors. The clean lines of the lacquered wooden top with rounded corners and cylindrical brass legs offer a versatile and dynamic style that will enrich the interior design of any modern home. Introduced at the 2018 Salone del Mobile event in Milan, this side table will fit snugly into any corner, next to a sofa, beside a bed, or can be combined with other tables from the same collection to create a unique, abstract coffee table.
