### DESCRIPTION

This versatile object of functional decor can be combined with a variety of Ulivi seating options. A short side element evokes the presence of a backrest for a striking effect, while the Grassè leather cover in a warm shade of brick red makes it particularly suitable to pair with sofas or chairs upholstered in the same color. Used to provide extra seating in a living room or as an elegant footrest by an armchair in a study, this pouf will be a versatile addition to a modern interior.
