LILIUM CUFF

\$310

DESCRIPTION

Exquisitely handcrafted of gold-plated brass, this cuff bracelet is inspired by the delicate shape of the lily flower. The open design is characterized by two, C-shaped bands intersecting at the center where the pendant charm hangs. The warm reflections of the gold reveal the exquisite details of the reflexed petals of a lily flower accented with zirconia in the center. Effortlessly elegant, this piece from the Frida Collection is suitable for both casual and formal attire. It can be gifted with the necklace, ring, or earrings from the same collection for a complete look.
