**LIMOUSINE BASKET GOLD BY RICHARD HUTTEN**

\$460

## DESCRIPTION

This exquisite tray is part of the Tip Top collection and was entirely made in stainless steel that was then given a brass finish to obtain its distinctive golden glow. This warm hue adds a gentle accent to the rigorous structure of the tray, which creates a hexagonal silhouette with a repetition of triangles over its base and sides. Ideal to store and display small objects or food in a contemporary setting, this piece can be combined with other home decor objects by the same designer for a cohesive look.
