LIMOUSINE TRAY IN COPPER FINISH BY RICHARD HUTTEN

\$530

DESCRIPTION

Part of the Tip Top collection, this tray in stainless steel was given a copper finish and its pink-like glow gives a gentle touch to its geometric silhouette. The hexagonal section of the piece is created by a series of triangles that form the texture of its bottom and sides. Contemporary and sophisticated, this piece will add an exquisite touch to a modern decor and can be used as a centerpiece on the dining table or a bowl to store and display everyday objects or food.
