LIGHTING : TABLE LAMPS

Serena Luxury Mosaic

LINEA ORANGE TABLE LAMP

\$5,160

DESCRIPTION

An exquisite object in Murano mouth-blown glass that captures the balance between light and shades, thanks to its perfectly proportioned forms, the purity of the design, and the opalescent finish obtained with the "sommerso" technique, where the white blown sphere is immersed in transparent gold glass creating an overlaying thick transparent glass. The supporting structure made of 24 kt gold-plated stainless steel and the lampshade in a natural fabric make this a timeless piece, perfect in every setting, whether turned on or off.
