LINGOTTO 1.2 SUPER CUPBOARD

\$11,230

DESCRIPTION

Part of the Lingotto Collection inspired by the famous building in Turin, this cupboard is a visually intriguing blend of classic warmth and industrial sophistication. This functional design embodies a dynamic fusion of materials in a three-module shape separated by liquid silver metal panels. This version is called Super Cupboard as it includes all three versions: glossy white lacquer, Canaletto walnut wood, and glossy black lacquer. The cut corners, internal glass shelves and soft-close doors add a stylish touch to this unconventional and statement-making piece.
