LINUS SIDE TABLE

\$1,590

DESCRIPTION

This unique side table will be a versatile and striking addition to a contemporary living room, thanks to its eye-catching, minimalist silhouette and the precious materials used. The structure is in metal with a black nickel finish that complements the base, a cone of Travertine marble. The single central leg of the piece ends in a hook-like element that will be useful to hold small objects with handles, while the round tray below is upholstered in exquisite leather.
