Lorenzo Franceschinis

LITHOS VASE

\$720

DESCRIPTION

Named after the ancient Greek word for stone, this vase is crafted of a full piece of kaki wood that was worked on the lathe and finely texturized to achieve its elegant elongated silhouette. The surface is treated with oxidized metals that give it the stunning look of a granite rock worked by hand. A one-of-a-kind piece that can be displayed in a contemporary entryway or minimalist living room, either alone or along with the other pieces by the same designer.
