LORSKY COFFEE TABLE

\$6,390

DESCRIPTION

The eclectic design of this exquisite coffee table is a homage to the 30s sculptor Boris Lovet-Lorsky, with the structural pillar carved in the shape of a woman warrior in whitened ash wood with a polished finish, resting on a strikingly contrasting black square base. The round top of the table is in African ebony wood with wedges inlaid in mother of pearl and a rim continuing the black and white theme in thin lines.
