LUCERTOLE PALE BLUE BOWL

\$320

DESCRIPTION

This stunning pale blue bowl was crafted by hand of ceramic. It is part of the Lucertole collection, lizards in English, named after the stunningly rendered animal that slithers on the surface of each piece, adding a sinuous sense of movement and a strikingly contrasting color. This eclectic and elegant object is a versatile addition in a modern home, where it will enliven any room of the house, also thanks to its textured exterior, boasting a series of bas-relief semi-spheres achieved with the "sac pochette" technique.
