LUCVID POLYCHROME SCULPTURE

\$3,815

DESCRIPTION

A breath-taking sculpture or a sophisticated table lamp when the integrated LED light (movable) is on, this design is an ode to colors and to the preciousness of mouth-blown Murano glass. Multicolor murrinas and filigrees trace the dynamic, abstract pattern of the piece, completed by a minimalist supporting base. The light filtering through the glass will produce stupefying chromatic effects.
