Ceramiche Pierluca

LUI&LEI WHITE SCULPTURE ANDREA FANTINATO

\$780

DESCRIPTION

Inspired by the Rubin face and M.C Escher's geometric perspectives, this stunning vase is an exclusive design by Andrea Fantinato that expresses the artistic potential of ceramic. Entirely crafted and painted by hand in white with a glossy finish, this vase features a cylindrical body enclosed in a semicircular structure, whose ends display the reversing profiles of a woman and a man. When seen from the sides, the contours of the profiles overlap creating an optical illusion. Available also in matte black, this vase is a standout piece that will add an intriguing touch in any decor.
