LUMACHINA EARRINGS

\$280

DESCRIPTION

This playful and sophisticated pair of earrings is a charming and eye-catching accessory that will not go unnoticed, either during a casual day or for an elegant evening occasion. Its gold-finished metal structure is shaped to stylistically reproduce the sinuous silhouette of a snail ("lumachina" in Italian), whose shell and body are adorned throughout with a series of transparent Swarovski crystals. The eyes of this small animal are rendered with red Swarovski crystal for a striking detail.
