*Studio Nove3*

**LUNA SIDE TABLE**

\$3,075

## DESCRIPTION

Modern and sophisticated, this side table combines noble materials to reveal a minimalist and versatile silhouette. Its name, meaning moon in English, hints at the shape of the top in solid wood, the contours flaring down to create a continuous line with the central support in white Carrara marble. This refined object of functional decor will look stunning next to a sofa, between two armchairs, or in an entryway. This piece is customizable in its materials, the top available in different lacquered finishes at an extra cost - please ask the Concierge for pricing in these options.
