LW 02 STOOL

DESCRIPTION

This versatile piece can be a stool, or a side table. It can be used as a base to display plants or other larger objects and it can be put in any room, either alone or with other similar ones from the same LW collection. The triangular top and three-leg structure give the piece a contemporary allure, while the use of solid durmast wood for the structure, combined with wenge and ash wood nails and inserts in multi-layer birch wood, display exquisite craftsmanship.
