DESCRIPTION

This stunning armchair will be a superb addition to a modern or eclectic decor, where it will make an elegant statement, adding a pop of vivid color with its red lacquer finish. Entirely crafted of beechwood, this piece was designed in 2003 by Vico Magistretti and boast the refined taste of this master of contemporary architecture. The vaguely Chinese-inspired frame is accented with a seat and back made of a single sheet of ply-beechwood for a stunning final touch.
