Waiting For The Bus

MALANDRINA SET OF 2 VASES

\$190

DESCRIPTION

These exquisite vases are crafted exclusively by hand of ceramics according to traditional methods with an initial shaping on the lathe, a first firing, followed by an enamel application and a second firing. They both depict a woman's face on the front, according to centuries-old Caltagirone pottery. One has a striking black opaque finish, while the other boasts a luxurious gold finish. Combining modern allure and classic references, this eclectic set will complement a contemporary decor, where it can be displayed with floral arrangements or as a striking decorative accent.
