## MALIBU SIDEBOARD

\$7,020

### DESCRIPTION

This elegant sideboard is inspired by the style of Californian furniture in the 60s and 70s. This living room and bedroom furniture collection was developed by the internal research center of the MAAM (a museum of art and furnishing with which Morelato collaborates). The Canaletto walnut wood that makes this piece gives a warm hue to the minimalist structure featuring two doors and three drawers characterized by diagonal inlaid handles.
