MANDARIN TEA POT

\$350

DESCRIPTION

Crafted entirely by hand of mouth-blown transparent glass, this elegant tea pot boasts a striking texture of parallel lines that run vertically on its curvaceous body, accentuating its sinuous shape. Comprising also a small spout and a handle, this piece is topped with a small lid decorated with a ferule with a gold finish, whose shape evokes Chinese architectures. A charming addition to both a classic and a contemporary home, this pot makes about six to eight cups of tea.
