MANHATTAN SET OF 6 GLASSES

\$225

DESCRIPTION

Colorful and eye-catching, this set is part of the Manhattan Collection. Each glass is hand decorated and boasts a superb geometric texture resulting from the juxtaposition of a myriad of rectangles that create striking effects when reflecting the surrounding light. The standout feature of these pieces is their color, each individual and vibrant, resulting in a rainbow on a monochromatic and contemporary table. This set can be displayed alongside the others in the same series to add colorful gleams to a special dinner setting. Each glass is 15 cm in height.
