MANUTENGOLO CONSOLE BY ADOLFO NATALINI

\$18,320

DESCRIPTION

Designed by Adolfo Natalini, this imposing console table is made entirely in cherry wood with a dark finishing. The two front legs are detached from the rest of the piece and connected to the top thanks to two striking bronze sculptures vividly rendering the image of a hand holding on to a stick. An elegant addition to an entryway or a living room, this sophisticated and playful piece will be ideal with a classic decor, because of its colors and materials.
