SET OF 3 MARBLE DIAMOND PLATES

\$760

DESCRIPTION

These exquisite plates are crafted in Carrara marble. The diamond shaped marble tiles can be arranged in groups of three, combining different colored marbles to create the elegant illusion of depth of a three dimensional cube. The cube pattern is inspired by geometric motifs found on the floors of the most lavish houses in the ancient city of Pompeii. Arranged in groups of three, in pairs, or even alone, these plates are visually stunning dinnerware ornaments.
