MARCO SMALL BLACK VASE BY SERGIO ASTI

\$2,230

## DESCRIPTION

A balance of technology and hand-craftsmanship, this innovative vase boasts a highly modern aesthetic while remaining true to traditional glass methods. Designed by Sergio Asti, this glass vase is the result of the meticulous study of antique casing techniques: the glass is hand-blown in a three-part wooden mold, the seemingly simple shape inspired by modern industrial design. The soft curves and edges of the truncated cone and flared pedestal base are enhanced by the glossy black color. Used as a centerpiece on a dining or side table, this piece will infuse dynamic allure into any decor.
