MAREA CHAIR

\$1,780

DESCRIPTION

This elegant chair is an ideal addition to a modern dining room, where its clean silhouette and elegant finishing will make a refined statement piece. The mixed solid wood and plywood structure is padded with multi-density polyurethane foam for a plush, comfortable feel in the seat cushion and the cutout backrest. The non-removable upholstery in blush pink is complemented by the contrasting piping in dark fabric, which matches the dark lacquer of the mid-century-inspired legs.
