MARGARET CHAIR

\$2,710

DESCRIPTION

The linear design of this stunning chair makes it a perfect addition to a modern dining room or contemporary office. The base is fashioned of solid ash painted with a dark wenge hue and supported by four slightly slanted legs. The polyurethane foam padding is upholstered in Leather Nubuck 2118 upholstery. The gentle curves of the seat and back are punctuated by a square cutout at the base of the curved backrest, providing a striking contrast with the narrow, elongated legs to reveal a harmonious visual aesthetic that is both sophisticated and timeless.
