MARGHERITA CABINET BY GEORGE SOWDEN - POST DESIGN

\$21,000

DESCRIPTION

This limited-edition cabinet (25 pieces) by George Sowden is certain to make a statement in a contemporary living room with its daring colors and sleek aesthetic. Made entirely of wood, it features a tall, rectangular silhouette that is visually and stylistically divided into two units. A mid-century inspired two-door cabinet below - with veneered panels, a red lacquered base and yellow knobs - and a contemporary top - with lacquered door panels and a red-centered motif in turquoise squares. The two-block rectangular feet and four-panel separations are fashioned of yellow plastic laminate. Materialism Collection.
