MARITIME GRAY LEATHER CHAIR BY BENJAMIN HUBERT

\$2,590

DESCRIPTION

The result of a precision handcrafted work, the Maritime Chair by Benjamin Hubert is a true work of art. The sleek and elegant natural oak wood frame is inspired by traditional wooden shipbuilding techniques, with a contoured shell-seat (45 cm high) recalling a boat's hull and visible ribs on the outside that give the design a distinctive 'maritime' look. This upholstered version includes thinly padded panels in dark gray leather on the inside, skillfully inserted into the distinctive timber framework. Available in both textile and leather options, ask the Concierge for details.
