MATERA ROLLER IN BUBINGA

\$260

DESCRIPTION

This exquisite roller pen was inspired by Matera, one of the oldest towns in the world and a stunning place in the South of Italy. Simple and very practical, this pen has an elongated and elegant silhouette, featuring a cap that protects its nib and can be also placed at the end of the barrel, when using it. The wood that covers the barrel is Bubinga, a stunning and resistant wood from Africa whose striking red and dark red hues with irregular purple veins make the piece a one-of-a-kind. A unique gift, this pen will be a precious addition to any home or office.
