MATERA ROLLER IN OLIVE WOOD

\$260

DESCRIPTION

Inspired by one of the oldest cities in the world, Matera, European culture capital in 2019, this elegant roller pen will be a unique and sophisticated addition to an office or a briefcase. The metal body features a cap that protects the nib and can be placed at the end of the barrel, when writing. The barrel is covered with olive wood, typical of the Mediterranean coasts and distinctive for its very fine texture and its brown-yellow color, with one-of-a-kind veins that elevate this everyday object to exquisite functional and decorative piece.
