## MATERA ROLLER IN PAU VIOLETO

\$260

### DESCRIPTION

Inspired by the striking southern Italian town of Matera, European capital of culture in 2019, this roller pen is an excellently crafted and stunning everyday object. A metal cap protects its nib and can be placed at the end of the barrel when writing. The piece is made in Pau Violeto, an exquisite wood from Brazil distinctive for its durability. Its unique purple hue with natural streaks makes this pen a one-of-a-kind piece that will be a precious addition to a home or an office.
