MEDIUM CHICKEN SCULPTURE II

\$335

DESCRIPTION

Exceptional showcase of traditional craftsmanship, this striking ceramic sculpture exudes refinement and rustic charm. A stylized depiction of a chicken, this piece is distinctive for its use of etching to form the delicate lines of the bold eyes, comb, and prominent tail of the bird. The unglazed finish reveals a natural ceramic color that highlights the white etchings, which seemingly emerge from the stone to create a stunning visual effect. The entire composition rests atop a stately hourglass pedestal.
