MEDIUM FLORAL COOLER/ICE BUCKET WITH LID

\$1,760

DESCRIPTION

This porcelain cooler/ice bucket is brimming with vintage appeal, defined by the delicate array of colorful flowers in pastel colors hand-painted on a white background to recreate the elegance of bygone eras. Based on the original, 18th-century design, this "rinfrescatoio" was conceived as a functional piece to keep fruit fresh on the table during long banquets. This modern version features two sections: the ice bucket base (17 x 15.5 H cm) and a top lid (17 x 5.5 H cm) for the food. This superb piece is best used as a centerpiece for floral and fruit arrangements. Signature gift box included.
