MEDIUM MARCHIGÜE WHITE VASE

\$210

DESCRIPTION

The Marchigüe collection seeks simplicity and purity of design through a conceptual exercise on the interaction and synthesis between form, shape and decoration. A pair of two-dimensional shapes, a circle and a hexagon, are linked together to form the raw material, concrete, into a finely crafted object. The design process, clearly visible on the surface of the vases, thus becomes the only decorative element of these monochromatic volumes. This medium-sized vase in white is entirely handcrafted in the Italian Alps.
