MELA SET OF 6 BOWLS

\$310

DESCRIPTION

Inspired by the color of an apple ("mela" in Italian), this elegant set of six porcelain bowls will enliven a modern dining room during dessert or aperitif. Each piece measures \varnothing 12 cm and H 8 cm and is crafted on the lathe. Its decoration boasts orange, apple-green, and red hues, whose unique juxtaposition is the result of hand-dripping the paint on the ivory-colored surface. The pure gold rim, fixed with a third firing in the kiln, completes this superb design. Slight differences in size and colors are possible and are the result of an entirely handmade production process.
