**MEMORIE CELESTI -TALOS SCULPTURE BY ALESSANDRO RAMETTA**

\$7,080

### DESCRIPTION

A precious one-of-a-kind, this refined sculpture is inspired by the mythical Talos, the bronze giant who was the guardian of Crete and who used to throw himself into the fire and then reemerge to incinerate his enemies. Enriched by concentric rings gracing the vase's neck, the embossed and inlaid body of this splendid sculpture matches the crater's natural shapes, whose mirror concavity enhances the mesmerizing red reflections of the metal. A polished finish completes this exclusive piece of decor.
