\$1,715

DESCRIPTION

New York city's lively charm and history have been the inspiration to create this collection of handmade ceramic vases. It is pursued a new concept of vases in which the black and white painting is combined with the sinuosity of the captivating skyline shape, evoking a metropolitan, jazzy style. A cutting-edge and bold combination of design and art adds beauty and elegance to any home décor. Each piece, which is handcrafted on a lathe and entirely handpainted, can be paired with other vases.
