---

#### DESCRIPTION

A piece that will elevate the aesthetic of any room, this vase of the Mia Collection designed by Serena Confalonieri brings interest and character to any interior decor. Marked by a geometric contrast between the rounded lines of the base and the bold top of perforated sheet, this vase is crafted entirely of iron with a black-nickel finish. The deep body is ideal for housing long-stemmed plant in a foyer or on a coffee table in a contemporary and industrial-inspired decor.
