MINO BLACK AND GOLD VASE

\$320

DESCRIPTION

This sculptural vase captures men's eternal journey towards the affection of a loved one. The tall, column-like legs connect to a short bust and head, the slightly angled pose evoking a loving gesture towards a paramour. The feet and head boast a gold finish that complements the black finish of the legs, the tops of which are equipped with holes suited for holding single-stemmed flowers or lavender stalks. As a flower vessel or an elegant decorative accent, this vase will create a fascinating atmosphere thanks to its essential, simple and harmonic geometric abstraction.
