MINO PAINTER VASE

\$390

DESCRIPTION

A dynamic dance of colors and gestures, this vase boasts a stylized silhouette of a man whose tall, column-like legs connect to a short bust and head defined by colorful streaks of paint. The tops of the legs feature two holes that are perfect for holding paint brushes in an art studio or flowers in an entryway or living room. The essential form gives importance to the essence it contains, the life expressed in its most beautiful form: a flower.
