MIZAR VASE BY ETTORE SOTTASS - MEMPHIS MILANO

\$6,780

DESCRIPTION

This stunning blown glass vase is part of a series of eclectic furniture complements designed by Ettore Sottsass for Memphis in 1982 and signed at the base. The vase's postmodernist allure is timelessly eye-catching, thanks to the superb combination of round and spherical elements, creating an updated interpretation of a traditional amphora shape marked by vibrant colors. It is possible to showcase this piece with the others by the same artist with floral arrangements or as striking sculptural decorations for a dynamic display. Size and hues can vary due to the hand-craftsmanship of the piece.
