MOCHA COPPER HAND WOVEN RUG

\$6,490

DESCRIPTION

This exquisitely hand-crafted rug is part of the Heavy Metal rug collection which is characterized by its mixture of vegetal fibers with metallic strands, specifically copper strands in this case. This unique combination produces striking three dimensional textures with an inviting feel. The contrast between the translucency of the metals and the opaque natural fibers give this piece a truly mesmerizing appeal. The monochromatic palette is subtly punctuated by the metallic thread and the simple pattern highlights the materials and the exceptional weaving.
