Fonderia Artistica Ruocco

MODERN FEMALE TORSO

\$10,200

DESCRIPTION

This superb statue representing the naked torso of a woman captures the pure elegance of movement. It is supported by a precious base carved of volcanic stone from the famous Neapolitan volcano Vesuvio. The figure is seemingly stuck in the rock, a dynamic pose that transcends its disfigured nature. The body is rendered in exquisite details, further enlivened by the choice to finish it with a green patina and shades of brushed gold. An alternative base in marble is also available, please ask the Concierge for pricing and options.
