MOE/BIUS 1 CENTERPIECE

\$1,495

DESCRIPTION

Different from the ash because of the darker grain found in old trees, the olive-ash boasts unique marble-like natural patterns and adorns this centerpiece, complementing the delicate curves of its upside-down U shape. The vaseline oil finish adds a smooth effect to the piece, that was crafted from a single piece of wood. This is a one-of-a-kind object that will enliven the look of a dining room or entryway.
